CATALOG B

---

COPYRIGHT 1910

BY

KEENAN STRUCTURAL SLATE CO., INC.

The Edgell Company  
Philadelphia

## Introduction

THIS CATALOG is presented in the belief that we will have your appreciation of our efforts to compile a book illustrating all that is best in sanitary slate fixtures, something never attempted before.

All slate furnished by us is quarried from the famous Genuine Bangor Vein, and has no superior as to its unfading color, strength and durability, and is manufactured in our own mills, which are the most modern and best equipped in the world.

Brass work shown is made up in our brass foundry. Entire fixtures being set up, carefully drilled, fitted and adjusted before shipment, thus insuring a satisfactory job in every respect.

The *guaranty* under which "Keenan" goods are sold is full and absolute

Every fixture has our  
freedom from annoyances  
non-guaranteed or infer-

thereon which assures  
unavoidable through use of  
ior brands.

## Special Notices

**Ordering:** Give plate number and all details according to catalog description, thus saving time, correspondence and avoiding confusion.

**Specifications:** Orders for goods not standard should be explicit and complete and, when possible, accompanied by sketch.

**Orders:** Are promptly and carefully executed. They cannot be cancelled without our consent; this is especially true of goods other than standard.

**Routing:** Definite instructions as to routes, etc., should accompany each order; otherwise the route is optional with us.

**Responsibility:** As questions constantly arise regarding responsibility of shippers, carriers and consignee, for loss of and damage to goods, etc. in transit, and in order to obviate lengthy correspondence concerning same, we beg to call special attention to the following:

Our responsibility ceases as soon as goods are delivered in good order and condition to the railroad company and receipt therefor taken. If carriers insist on our signing a release or other document having reference to their liability, in order to secure lowest possible freight rates or otherwise, before they receive goods, we will comply unless instructed differently when order is placed with us. This, however, does not affect the right of the consignee to recover damages for any carelessness or negligence on part of carrier.

**Returning Goods:** They will not be accepted by us, unless arrangements for such return have been previously made by correspondence. Parties returning goods must be responsible for safe delivery and, unless otherwise agreed, pay all shipping expenses.

**Prices:** All prices f. o. b. Bangor properly crated for shipment. Positively no freight allowances unless specifically agreed upon. Destroy all previous sheets or editions of our catalog.

**Terms:** Two per cent. for cash in ten days from date of invoice, net cash thirty days.

**Suggestions:** We are always glad to receive same, whether for new designs and fittings, or the improvement of existing ones. Whatever advantages we possess are the common property of our clients and a part of our good will. It is a real pleasure to be of service to our patrons. Correspondence is solicited on subjects of mutual interest.

**Blue Prints:** Any fixture shown herein we will be pleased to furnish blue prints of or make up for special fixtures from pencil sketches and description.

**Weight:** The estimated weight of slate, properly crated for shipment, is 16 pounds to the square foot, 1 inch thick. Other thicknesses in proportion.

Respectfully submitted,

Keenan Structural Slate Co., Inc.

## The Varied Uses of **Slate** Manufactured by Keenan Structural Slate Co.

Slate is used for a variety of purposes, where its non-combustibility, durability, cleanliness and absolute non-absorption make it invaluable. The following is a partial list:

Interior Finish of Buildings	Sanitary Slate	Industrial	Household
Steps	Urinals	Vats and Tanks of all Sorts	Refrigerator Shelves
Risers	Shower Stalls	for Dye Works	Cupboard Shelves
Platforms	Bath-room Partitions	Chemical Works	Pantry Shelves
Floor Tile	Morgue Slabs	Dairies	Shelving of all sorts
Wainscoting	Operating Tables	Bottling Establishments	Pastry Boards
Vestibule Panels	Germ-proof Flooring	Canneries	Table Tops
Base	Mausoleums	Soda Fountains	Kitchen Sinks
Dowels	Grave Vaults	Slaughterhouses	Wash Tubs
Lintels	Grave Covers	Bakeries	Sink Tops
Window Sills	Grave Markers	Florists	Lavatory Tops
Coping	Cistern Covers	Tanneries	
Tiling	Feed and Water	Electric Switch Boards	<b>Educational</b>
Mantels	Troughs	Fish Tanks	Blackboards
Fire Boards	Oyster Troughs	Aquarium Bottoms, Etc.	Bulletin Boards

## Genuine Bangor Slate Urinal Stalls

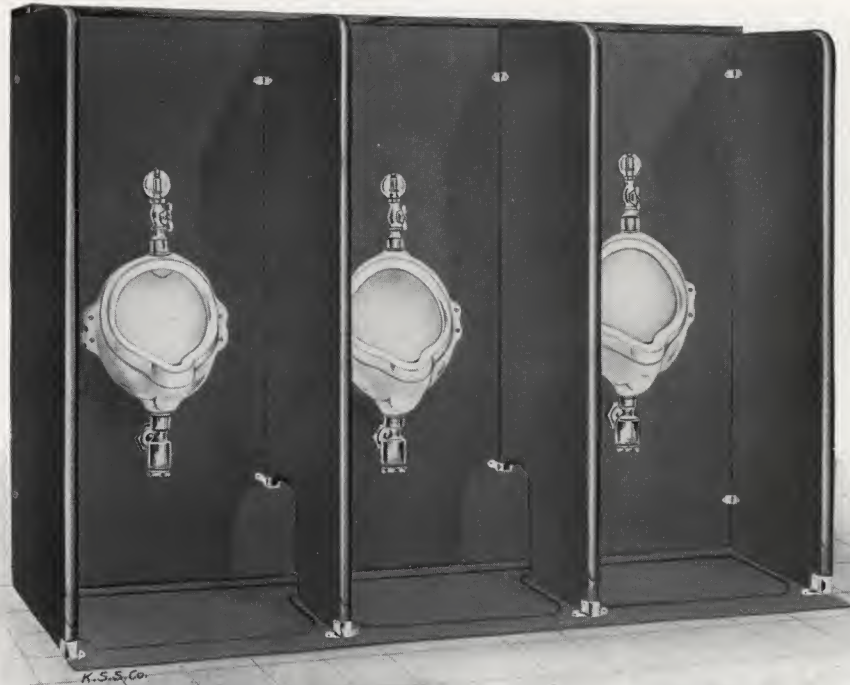

### B-1

B-1 includes 3-Stall Slate Urinal with 1-inch Ends and Partitions finished both sides; 1-inch Back finished one side; 7-inch Capping covering working space for connections, and 2-inch Countersunk Base, fitted with Nickel Plated Brass Clamps as shown.

*Dimensions of Stalls*—Height, 5 feet or 5 feet 6 inches; Width from center to center of Partitions, 2 feet; Depth of Partitions, 1 foot 8 inches; of Ends, 2 feet 2 inches. Base projects 2 inches in front of Ends and Partitions. 6-inch space allowed at back for connections. Prices complete as described for Slate with necessary brass angles, clamps and bolts required for erecting only.

Height.....	5 ft.	5 ft. 6 in.
3-Stall complete as described .....	\$47.50	\$51.50
Foreach additional Stall (continuous), add...	13.00	14.00
If less than three Stalls are required, deduct for each Stall.....	13.00	14.00
Special sizes to order on short notice.		

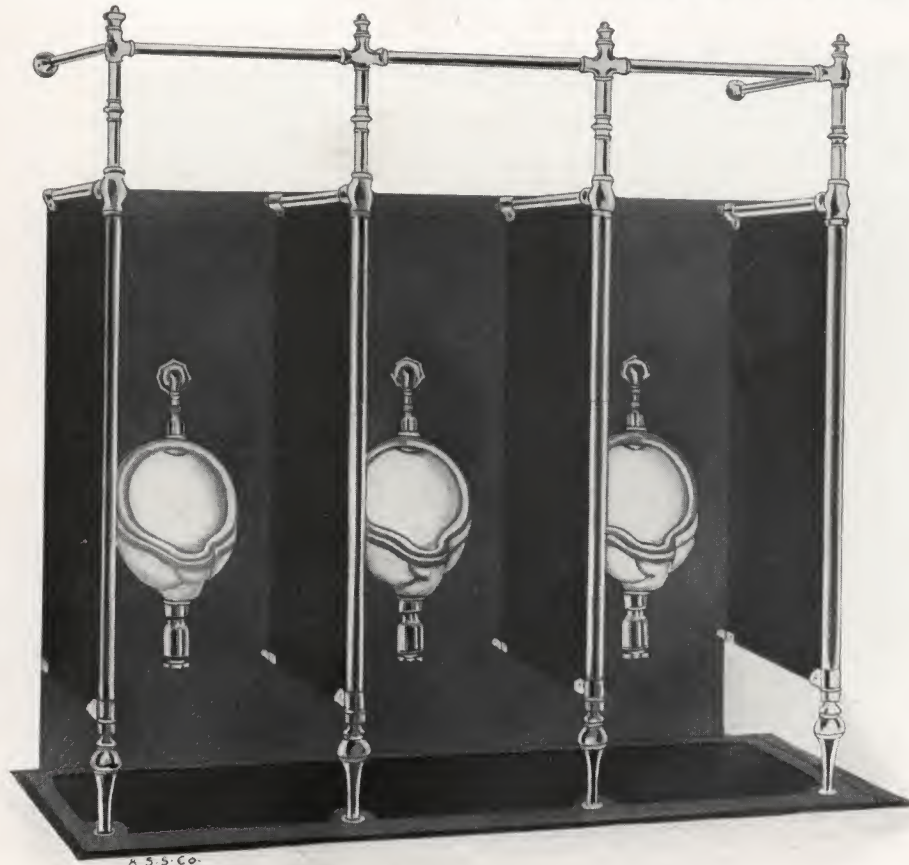

Every Stall sent out is set up and carefully adjusted before leaving our factory.

KEENAN STRUCTURAL SLATE COMPANY, Incorporated, BANGOR, PA.

## Genuine Bangor Slate Urinal Stalls

### B-2

B-2 includes 3-Stall Slate Urinal with 1-inch Partitions finished both sides; 1-inch Back finished one side and 2-inch thick Countersunk Base.

*Dimensions of Stalls*—Height, 5 feet or 5 feet 6 inches; Width from center to center of Partitions, 2 feet; Depth of Partitions, 1 foot 10 inches; Base, 2 feet wide. Standards supporting Partitions, 12 inches high; Standards for Top Railing, 12 inches high.

Number of Stalls . . . . .	4	5	6
Price complete as described 4' 6" high . . . . .	\$139.00	\$167.00	\$195.00
Price complete as described 5' 0" high . . . . .	\$144.00	\$173.00	\$202.00

Special Sizes will be made if requested

Special Single Ventilated Urinals were designed by one of the leading Sanitary Engineers, and meet every demand for perfect sanitation. These Urinals commend themselves to every Architect, Sanitary Engineer, etc., for their ventilating effect upon the entire room. Through an opening near the urinal floor a constant flow of air passes into the air space behind the back, and out at the top through a vent flue. (See cross-section above.) By connecting it with a warm-air flue or chimney an efficient draught is generated. The entire surface of the back slabs is constantly flushed from a perforated brass wash-down pipe fitted with a loose-key stop-cock to regulate the flow of water, reducing it to a minimum. Special attention is invited to the gutter, made from a solid block of slate, and filled with a constantly changing body of water, 3 inches deep. A standing waste siphons the gutter periodically. When flushing out the toilet-room the surplus water can be disposed of by simply unscrewing the cap of the waste. A manhole at end of urinal gives ready access to the gutter and its connections. Every stall sent out is set up and carefully adjusted before leaving our factory.

KEENAN STRUCTURAL SLATE COMPANY, Incorporated, BANGOR, PA.

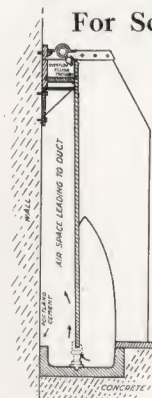

## Special Single Ventilated Slate Urinals

For Schools and Public Buildings

B-5 1/2

Special Single Ventilated Slate Urinal with Partitions, Back, Overflow Flushing Box, Floor and solid slate Waste Trough extending under slate cover at end, with 3-inch Nickel Plated removable Standing Overflow; Partition Braces with supply pipe holders; 1 1/4-inch Galvanized Iron Supply Pipe with Brass Pet Cocks and supporting Standards under Back.

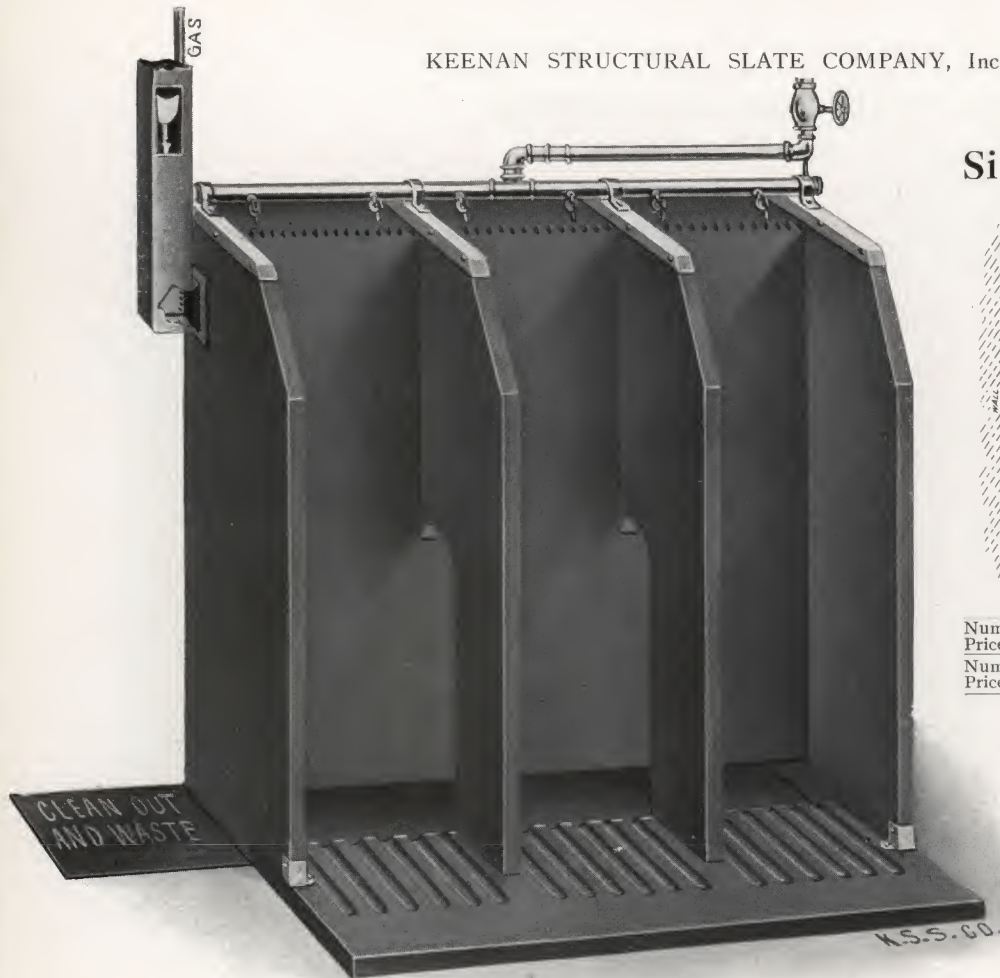

*Dimensions of Stalls*—Height, 5 feet; Width, 2 feet center to center of Partitions; Depth of Ends, 1 foot 8 inches; Partitions, 1 foot 2 inches; Thickness of Partitions, Back and Ends, 1 inch; Floor, 2 inches; Waste Trough, 6 inches.

Number of Stalls . . . . .	1	2	3
Price complete as described . . . . .	\$67.00	\$104.00	\$142.00
Number of Stalls . . . . .	4	5	6
Price complete as described . . . . .	\$180.00	\$218.00	\$255.00

Special Single Ventilated Slate Urinals are a thoroughly sanitary fixture (note cross section above showing detail of operation). The water is fed into an Overflow Flushing Box, from which it overflows through serrations at top and forms a continuous sheet on the Back, falling into the Waste Trough at Floor. The Standing Overflow in the Waste Trough holds the water to a depth of 2 inches, and acts as a deodorizer. The air space at the back of Urinal is connected with a ventilating flue, thus causing a constant draught from the Urinal Trough into the ventilating flue, not only ventilating the Urinal but the entire room.

Every Stall sent out is set up and carefully adjusted before leaving our factory.

KEENAN STRUCTURAL SLATE COMPANY, Incorporated, BANGOR, PA.

## Special Double Ventilated Slate Urinals

### For Schools and Public Buildings

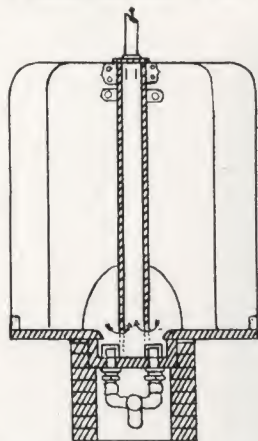

Special Double Ventilated Slate Urinals are favorite types with United States Government for barracks, etc. Should be erected well out toward the middle of the room allowing free access of air from all parts. Slate Partitions, Backs, Caps, Gutter and Grooved Floor Slabs, Nickel Plated Standing Wastes, Perforated Washdown Pipes with Loose-key Stop-cock, Partition Braces and Vent Collar.

*Dimensions of Stalls*—Height, 4 feet 6 inches, or 5 feet; Width, 2 feet, center to center; Depth, ends, 4 feet 3 inches; Partitions, 1 foot 2 inches; Thickness, Ends, Partitions, Cap and Backs, 1 inch; Manhole Cover, 1½ inch; Floor Slabs, 2 inches; Gutter, 6 inches. In ordering give location of waste.

Number of Double Stalls..	1	2	3
Price complete as described 4' 6" high.....	\$94 00	\$144 00	\$194 00
Price complete as described 5' 0" high.....	97 00	148 00	199 00

Number of Double Stalls..	4	5	6
Price complete as described 4' 6" high.....	\$244 00	\$294 00	\$344 00
Price complete as described 5' 0" high.....	250 00	301 00	352 00

Special sizes will be made if requested.

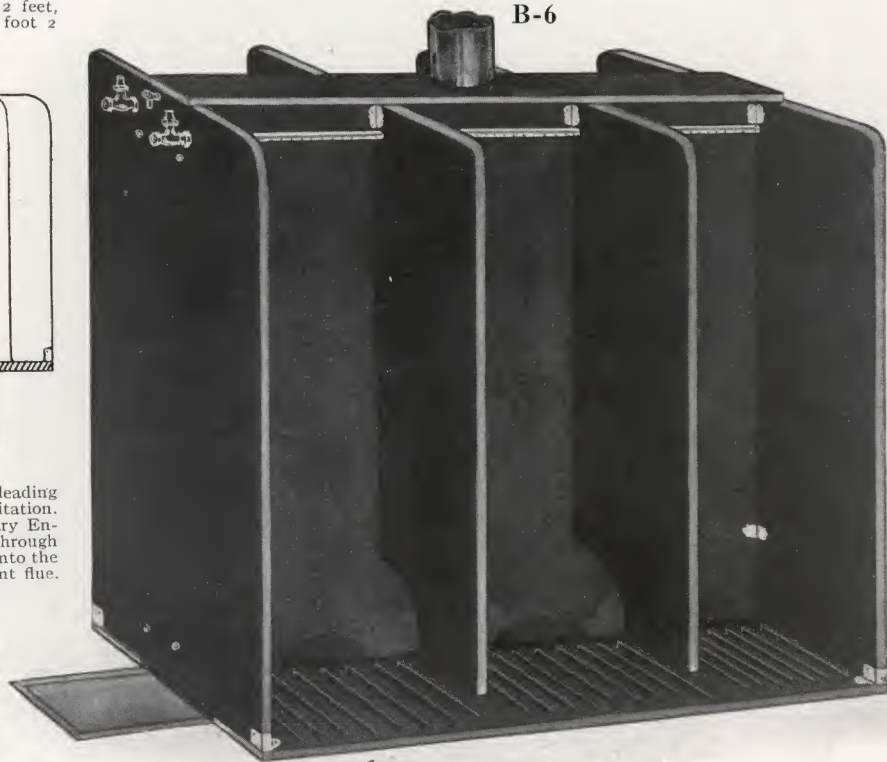

Special Double Ventilated Urinals were designed by one of the leading Sanitary Engineers, and meet every demand for perfect sanitation. These Urinals commend themselves to every Architect, Sanitary Engineer, etc., for their ventilating effect upon the entire room. Through an opening near the urinal floor a constant flow of air passes into the air space behind the back, and out at the top through a vent flue. (See cross section above.) By connecting it with a warm air flue or chimney an efficient draught is generated. The entire surface of the back slabs is constantly flushed from a perforated brass Wash-down Pipe fitted with a Loose-key Stop-cock to regulate the flow of water, reducing it to a minimum. Special attention is invited to the gutter, made from a solid block of slate, and filled with a constantly changing body of water, 3 inches deep.

A standing waste siphons the gutter periodically. When flushing out the toilet-room the surplus water can be disposed of by simply unscrewing cap of the waste. A manhole at end of urinal gives ready access to the gutter and its connections. Every stall sent out is set up and carefully adjusted before leaving our factory.

## Genuine Bangor Slate Urinal Stalls

### B-7

B-7 includes 3-Stall Slate Urinal with 1-inch Ends and Partitions finished both sides; 1-inch Back finished one side; 2-inch Countersunk Base with gutter sunk in same at back for draining to center or either end. Brass Beehive Strainer with coupling and Nickel Plated Brass Perforated Washdown Pipe with Loose-key Stop-cock. Ends and Partitions supported by Nickel Plated Brass Clamps.

*Dimensions of Stalls*—Height, 5 feet; Width from center to center of Partitions, 2 feet; Depth, 1 foot 8 inches.

Prices complete as shown.

---

3-Stall Urinal complete as above described. . \$67.00  
For each additional stall (continuous), add. . 19.00  
If less than three stalls are required, deduct  
for each stall . . . . . 19.00

---

B-7 can be furnished any special size to order on short notice.

NOTE:—In ordering specify whether outlet is wanted in center or at end, and if at end, which.

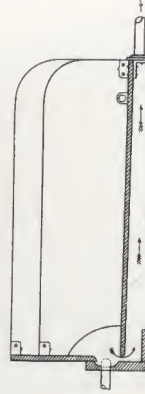

Every Stall sent out is set up and carefully adjusted before leaving our factory.

K.S.S.Co.

KEENAN STRUCTURAL SLATE COMPANY, Incorporated, BANGOR, PA.

## Genuine Bangor Slate Ventilated Urinals for Schools and Public Buildings

### B-8

Ventilated Slate Urinals with Partitions, Back, Cap, Floor Slab and Gutter. Nickel Plated Waste, Perforated Wash-down Pipe with Loose-key Stop-cock, Partition Braces and Vent Collar.

*Dimensions of Stalls*—Height, 4 feet 6 inches or 5 feet; Width, 2 feet center to center; Depth: Ends, 2 feet 4 inches, Partitions, 1 foot 6 inches; Thickness: Partitions, Back and Cap, 1 inch; Floor Slab,  $1\frac{1}{4}$  inch; Gutter, 3 inches. In ordering give location of waste.

Number of Stalls . . . . .	1	2	3	4	5	6
Price complete as described, 4 feet 6 inches high . . . . .	\$44.00	\$68.00	\$92.00	\$116.00	\$140.00	\$164.00
Price complete as described, 5 feet high . . . . .	46.00	72.00	98.00	124.00	150.00	176.00

Special Sizes will be made if requested.

B-8 consists of all the features of ventilation comprised in our Special B-5 and B-6 Ventilated Urinals excepting the Gutter which does not provide for standing water, but disposes of the same as it washes down the back by means of a Gutter at back and wasting through Bell Trap in Gutter.

Every Stall sent out is set up and carefully adjusted before leaving our factory.

## Genuine Bangor Slate Urinal Stalls

### B-9

B-9 includes 3-Stall Slate Urinal with 1-inch Ends and Partitions finished both sides; 1-inch Back finished one side; 2-inch Countersunk Base with Nickel Plated Brass Strainer and Coupling; Nickel Plated Brass Standards 12 inches high for center Partitions and Nickel Plated Brass Angles and Clamps for supporting Ends and Partitions in place.

*Dimensions of Stalls*—Height, 5 feet; Width from center to center of Partitions, 2 feet; Depth of Ends and Partitions, 1 foot 8 inches. Base projects 2 inches at front of Ends and Partitions.

Prices complete as described for Slate with necessary brass clamps, angles, standard and strainer required for erecting only.

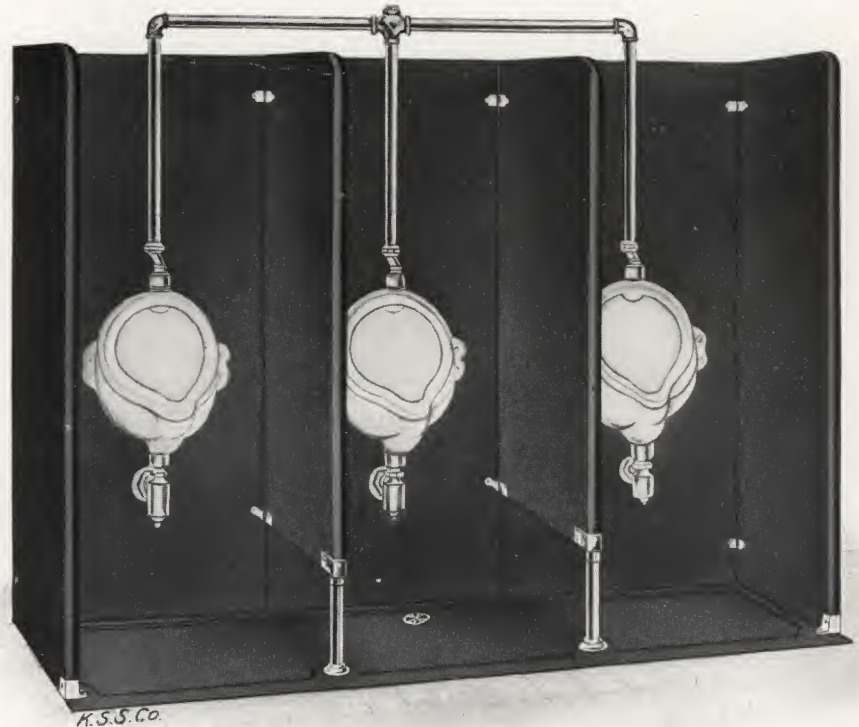

---

3-Stall Urinal complete as above described, . . .	\$47.50
For each additional Stall (continuous), add . . .	15.00
If less than three stalls are required, deduct for each stall. . . . .	15.00

---

B-9 can be furnished special sizes; also with space behind back for connecting pipes, as shown in B-3.

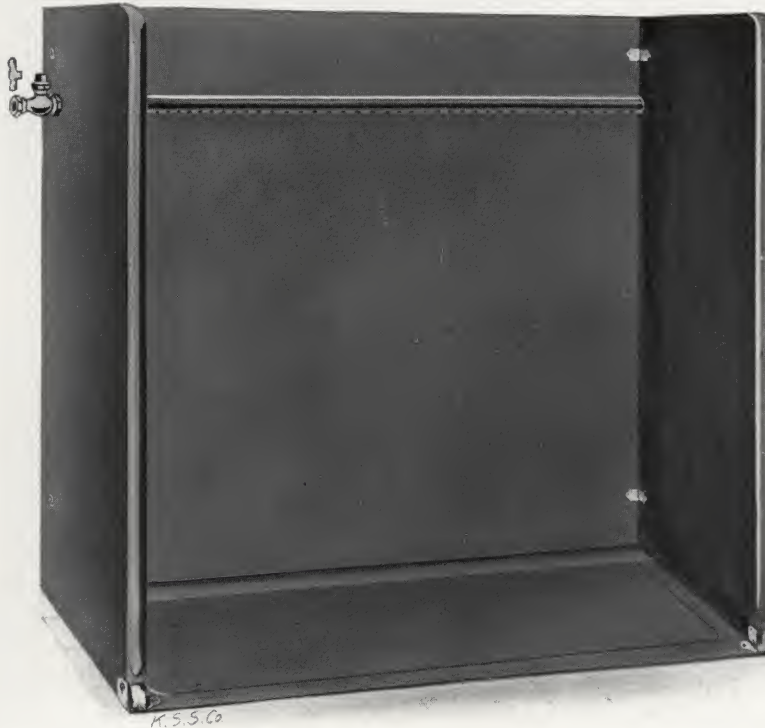

Every Stall sent out is set up and carefully adjusted before leaving our factory.

KEENAN STRUCTURAL SLATE COMPANY, Incorporated, BANGOR, PA.

## Genuine Bangor Slate Urinals for Schools and Public Buildings

### B-10

B-10 includes Slate Urinal with two 1-inch Slate Ends, finished both sides; 1-inch Slate Back; 2-inch Countersunk Base, with separate Slate Gutter (see sectional cut) with Brass Gutter Strainer in center or at either end as desired. Nickel Plated Perforated Washdown Pipe with Loose-key Stop-cock.

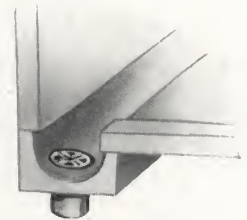

Held in position with Heavy Nickel Plated Brass Angles and Clamps.

*Dimensions*—Height, 4 feet 6 inches or 5 feet; Depth, 1 foot 8 inches, and made up in any length desired.

*NOTE*—This Urinal is especially adapted for school purposes. The Gutter arrangement is particularly commended for sanitary reasons. It is so made that the Back and Base of Urinal extend slightly over the edges, compelling all wash and drip to fall directly into the Gutter. It being slate makes it far superior to any metal Gutter, as it is absolutely non-absorbent and cannot rust or corrode.

In ordering be sure to give location of Outlet and Supply, whether right or left hand end.

Every Stall sent out is set up and carefully adjusted before leaving our factory.

For each stall complete as shown (continuous) add.....	23.50	24.50	1.50
For each stall complete as shown less than 3-Stalls, deduct.....	23.50	24.50	1.50

Special Sizes made if requested.

B-11½-S Urinals meet every demand for perfect ventilation and commend themselves to every Architect, Sanitary Engineer and others for their ventilating effect upon the entire room. Through an opening at the back and directly over the gutter provided by backs resting on brackets extending over gutter and 4 inches from wall passes a constant flow of air into the Air Space behind the back and out at the top through a vent flue (see cross section above.) By connecting with a warm air flue or chimney an efficient draught is generated. The entire surface of the back slab is constantly flushed from a perforated brass wash-down pipe with loose-key stop to regulate the flow of water.

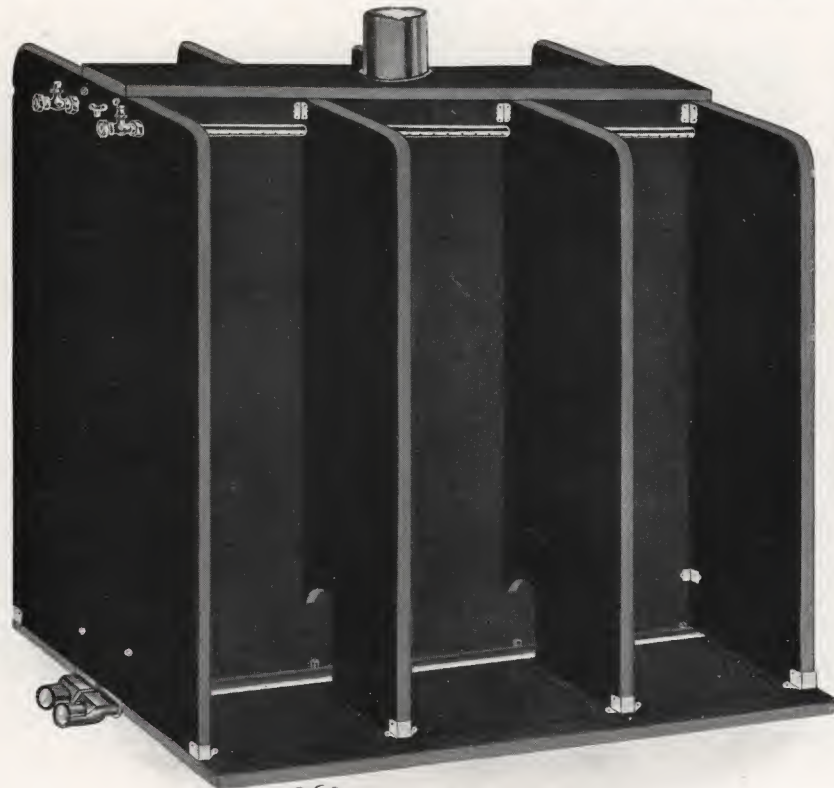

Every Stall sent out is set up and carefully adjusted before leaving our factory.

K.S.S.Co.

## Special Single Ventilated Slate Closet Stalls

For Schools and Public Buildings

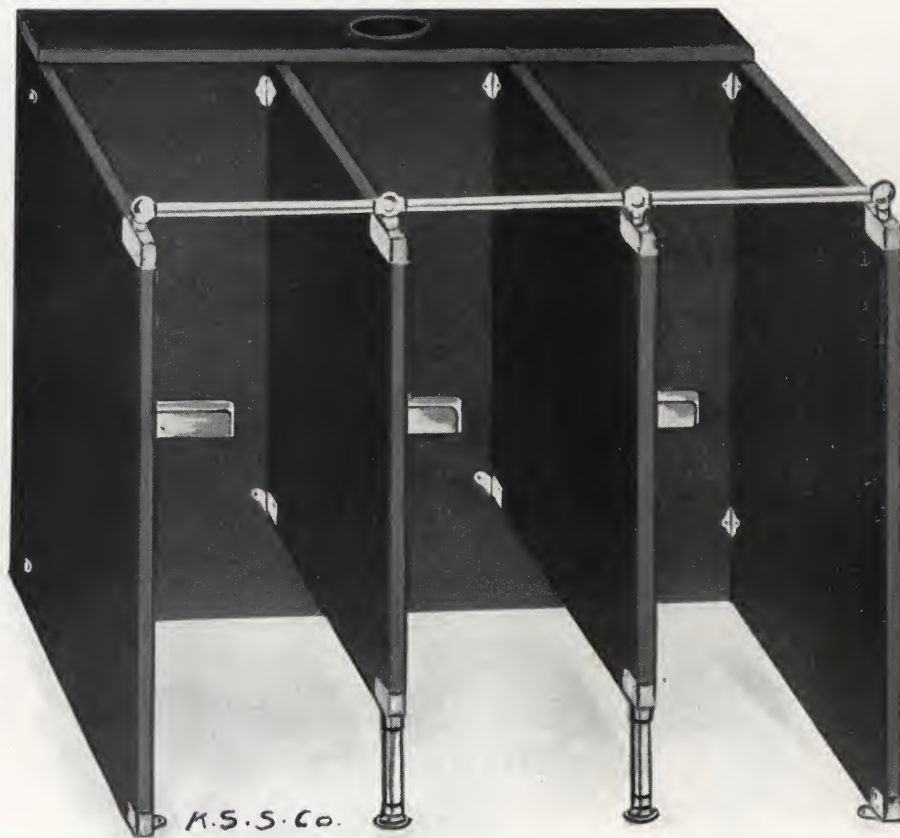

**B-26**

Special Single Ventilated Slate Closet Stalls with Back, Ends, Partitions and Caps. Back and Ends to floor; Center Slabs supported on 12-inch Legs. Clamps, Stirrups, Top Rail with Standards, Vent Hoods and Vent Flue Collar nickel plated.

Plans, dimensions and prices on application.

Special Single Ventilated Slate Closet Stalls with ventilating hoods at back over closet seats, are especially designed to complete ventilated toilet rooms in connection with our Ventilated Urinals, Plate B-5 and B-6. Ventilation is accomplished by ventilating hoods at back just over water closets, from which air passes into the air space behind the back and out through a vent flue projecting through the vent hole in the cap. An efficient draught is created by connecting this vent pipe with a warm air flue or chimney.

Every Stall sent out is set up and carefully adjusted before leaving our factory.

KEENAN STRUCTURAL SLATE COMPANY, Incorporated, BANGOR, PA.

## Special Double Ventilated Slate Closet Stalls

For Schools and Public Buildings

**B-27**

Special Double Ventilated Slate Closet Stalls with Backs, Ends, Partitions and Caps. Back and End Slabs to floor; Center Slabs supported on 12-inch Legs. Clamps, Stirrups, Top Rail with Standards, Vent Hoods and Vent Flue Collar nickel plated.

Plans, Dimensions and Prices on application.

Special Double Ventilated Slate Closet Stalls for erection in center of room, well away from walls, to permit free passage of air from all sides, with ventilating hoods at back over closet seats, are especially designed to complete ventilated toilet-rooms in connection with our Ventilated Urinals, Plate B-5 and B-6. Ventilation is accomplished by ventilating hoods at back just over water-closets, from which the air passes into the air space behind the back and out through a vent flue projecting through the vent hole in the cap. An efficient draught is created by connecting this vent pipe with a warm air flue or chimney.

Every Stall sent out is set up and carefully adjusted before leaving our factory.

K. C. S. CO.

## Range Double Slate Shower Bath Stalls

### B-28

Range Double Slate Shower Bath Stalls includes Backs, Ends and Partitions all extending to and embedded 1 inch in cement floor. Clamps, Stirrups, Angles and Top Rail Nickel Plated.

*Dimensions of Stalls*—Height above floor, 6 feet 6 inches; Stalls, 3 feet by 3 feet inside; Thickness of slabs, 1 inch.

Number of Double Stalls	Price complete as described
1 .....	\$91.00
2 .....	145.00
3 .....	199.00
4 .....	253.00
5 .....	307.00
6 .....	361.00

Special sizes will be made if requested.

B-28 Range Double Slate Shower Bath Stalls are particularly adapted for use in Government Army Posts and Naval Stations, and the United States Government specify this fixture in many of the new Posts now being erected or remodeled.

Every Stall sent out is set up and carefully adjusted before leaving our factory.

A.S.S.Co.

KEENAN STRUCTURAL SLATE COMPANY, Incorporated, BANGOR, PA.

Special sizes made on request

Every Stall sent out is set up and carefully adjusted  
before leaving our factory.

KEENAN STRUCTURAL SLATE COMPANY, Incorporated, BANGOR, PA.

## Slate Needle and Shampoo Bath Stalls

For Bath Houses, Clubs and Gymnasiums

### B-31

Slate Needle and Shampoo Bath Stalls have Backs, Ends and Curbs extending to and embedded 1 inch in cement floor. Clamps, Angles, Top Rail and Standards Nickel Plated.

*Dimensions*—Height of Backs and Ends from floor, 6 feet 6 inches; Stalls, 3 feet 2 inches by 3 feet 2 inches, inside; Thickness of Backs and Ends, 1 inch; Stiles and Curbs, 1 ¼ inches.

Price complete as described for Stall only, and does not include needle and shampoo appliances.....\$61.00

Can be furnished with countersunk slate floor if desired.

Every Stall sent out is set up and carefully adjusted before leaving our factory.

## Slate Needle and Shower Bath Stalls

For Bath Houses, Clubs and Gymnasiums

### B-32

Slate Needle and Shower Bath Stalls with Backs and Ends extending to countersunk Slate Floor Slab. Clamps, Stirrups and Waste Nickel Plated.

*Dimensions*—Height of Back and Ends from floor, 6 feet 6 inches; interior of Stall, 3 feet 2 inches by 3 feet 2 inches; Thickness, Backs and Ends 1 inch; Floor, 2 inches.

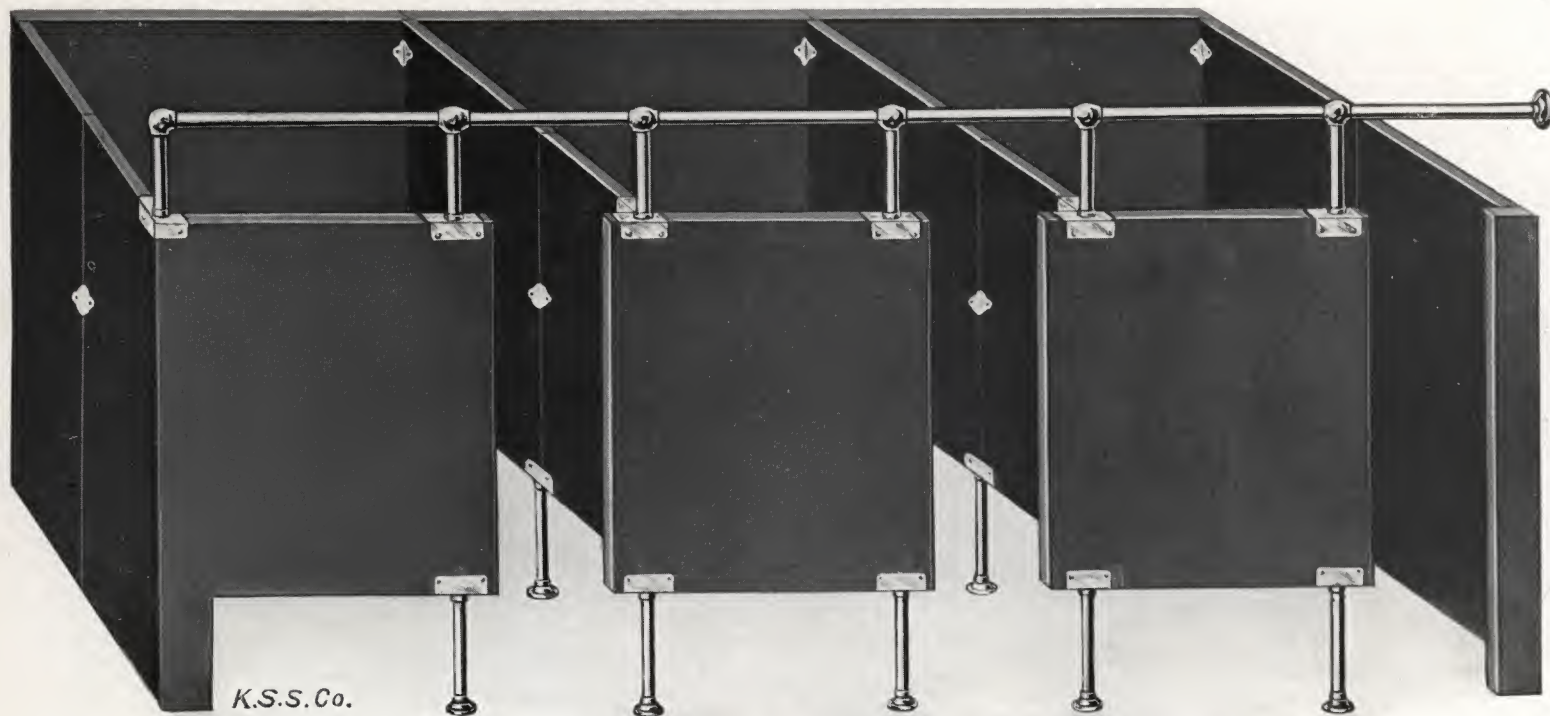

Price complete as described for Stall only, and does not include Needle and Shower appliances .....\$51.00

Every Stall sent out is set up and carefully adjusted before leaving our factory.

KEENAN STRUCTURAL SLATE COMPANY, Incorporated, BANGOR, PA.

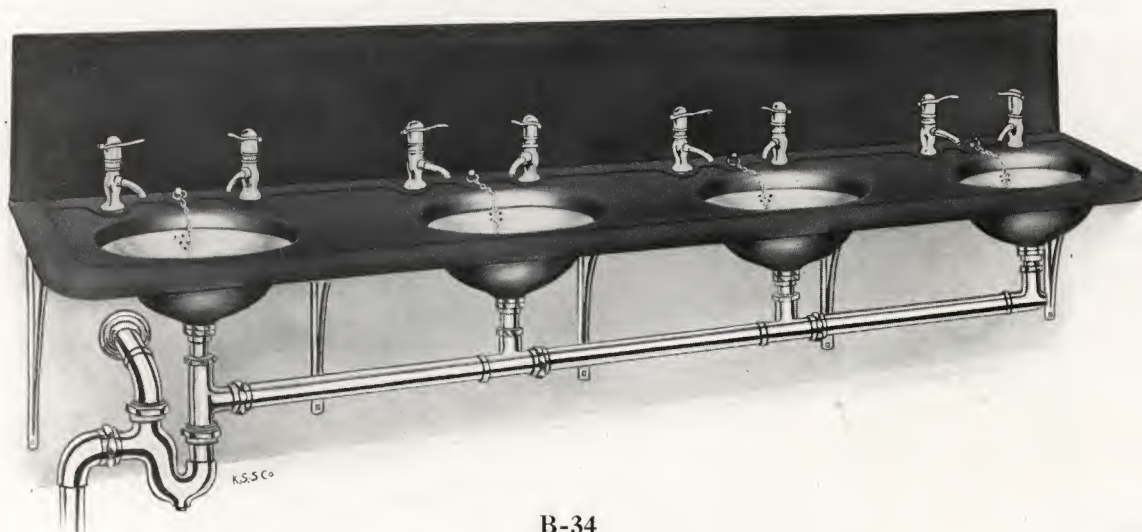

## Special Range Slate Bath Room Stalls For Hospitals, Bath Houses, Etc.

**B-33**—Special Range Slate Bath Room Stalls with Backs, Ends and Partitions, 1 inch thick; Stiles, 1½ inches. Backs and Ends extending to and embedded 1 inch in cement floor; Partitions and Center Stiles resting on 12-inch Legs. Clamps, Angles Stirrups, Top Rail with Standards and Legs nickel plated. Plans, Dimensions and Prices on application. Every Stall sent out is set up and carefully adjusted before leaving our factory.

KEENAN STRUCTURAL SLATE COMPANY, Incorporated, BANGOR, PA.

## Slate Lavatories for Schools, Factories and Public Buildings

**B-34**

B-34 Four Basin Lavatory 7 feet long, 22 inches wide,  $1\frac{1}{4}$  inches thick; Countersunk Top; 14-inch-high Back.  
Price for Slate only, cut and drilled for all fittings, as shown.....\$17.00

Prices complete as shown with Oval or Round Basins on application.

B-34 can be furnished in special sizes to order on short notice.

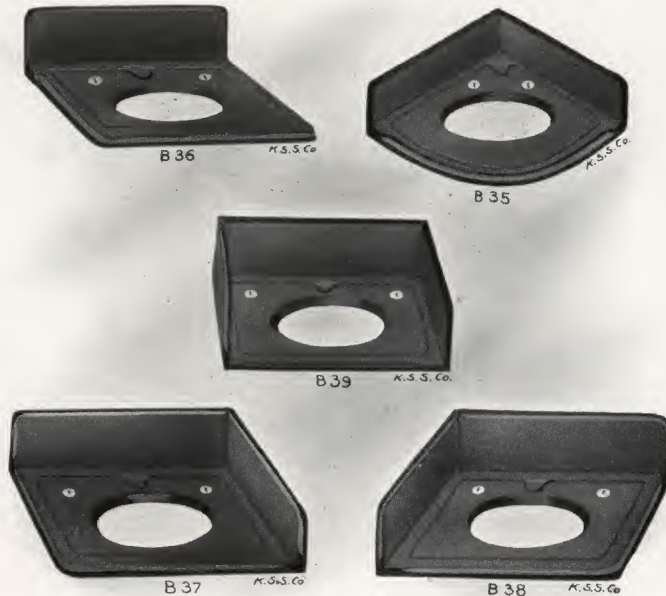

In ordering give size of Basin, and distances from back to center of supply.

The hard usage to which Lavatories are subjected in Schools, Factories and Public Buildings has led to the adoption of Slate for all Toilet Room work. Marble, which soon becomes stained if not broken, is practically of no service; Slate, on the contrary, retains its original color, is non-absorbent and practically indestructible.

Every fixture sent out is set up and carefully adjusted before leaving our factory.

## Slate Lavatories for Schools, Factories and Public Buildings

### Corner Lavatory, B-35, with 10 Inch Backs

20 x 20 inches.....	\$5.75	22 x 22 inches.....	\$6.25
24 x 24 inches.....	\$6.75		

### Single Back Lavatory, B-36, with 10 Inch Back

20 x 26 inches.....	\$5.50	20 x 30 inches.....	\$6.00
22 x 30 inches.....	\$6.50		

If chamfered edges in place of O. G. as shown, deduct 50 cents.

### Right or Left Hand End Lavatories B-37 and B-38, Back and End 10 Inches High

20 x 26 inches.....	\$5.90	20 x 30 inches.....	\$6.35
22 x 30 inches.....	\$7.00		

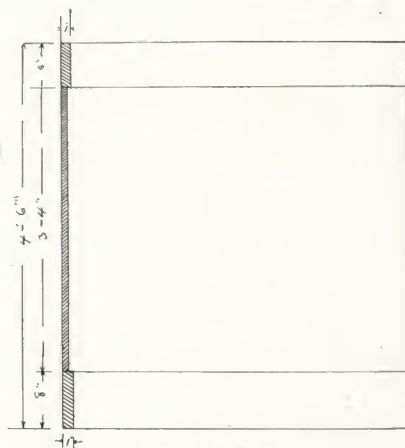

If chamfered edges in place of O. G. as shown, deduct 60 cents.

### Recess Lavatory B-39 with Back and Two Ends 10 Inches High

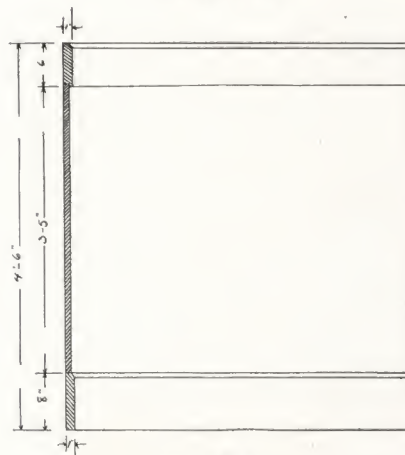

This Lavatory finishes flush with the wall.  
Recess Lavatories are so varied in size that a table of prices would be of no benefit.

All above prices based on 1 inch thick Back and Ends, 1¼ inch thick Countersunk Slab cut either for oval or round basin.

In ordering be particular to state size, number of cock holes, if for chain stay and clamps, size of bowl and whether round, oval or square.

**Slate Wainscoting for Toilet Rooms, Hospital  
Wards, School Rooms, Railroad Waiting  
Rooms, Operating Rooms, Assembly  
Halls, Bacteriological Laboratories,  
Vestibules, Etc.**

Slate Wainscoting in addition to its adaptability in the natural slate admits of pretty ornamental effects by marbleizing to imitate any desired color of Foreign or Domestic Marble and Tile so perfectly that even an expert cannot tell the difference except on the closest examination.

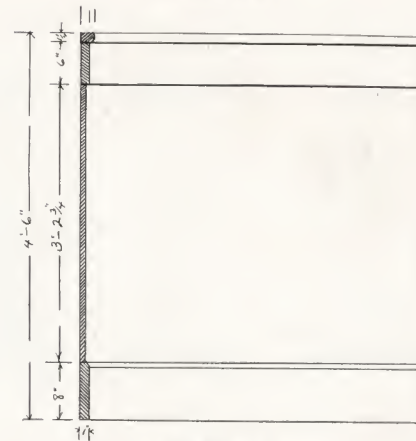

We are furnishing large quantities of this material for Vestibules, Halls and Bath Rooms, Wainscoting in Flats, Apartment Houses, Restaurants and Hotels.

Our Imitation Tile is especially fine, is easily put in position by ordinary mechanics with no possibility of any part being displaced or falling out, neither does it afford lurking place for vermin.

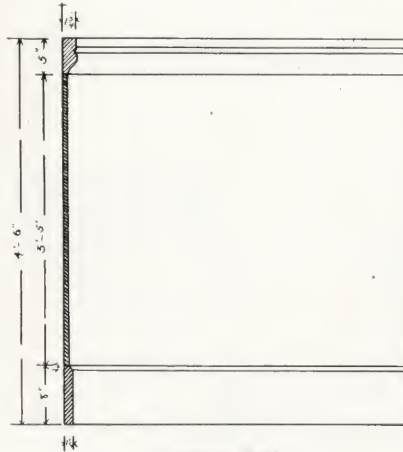

Write for prices.

## Genuine Bangor Slate Blackboards

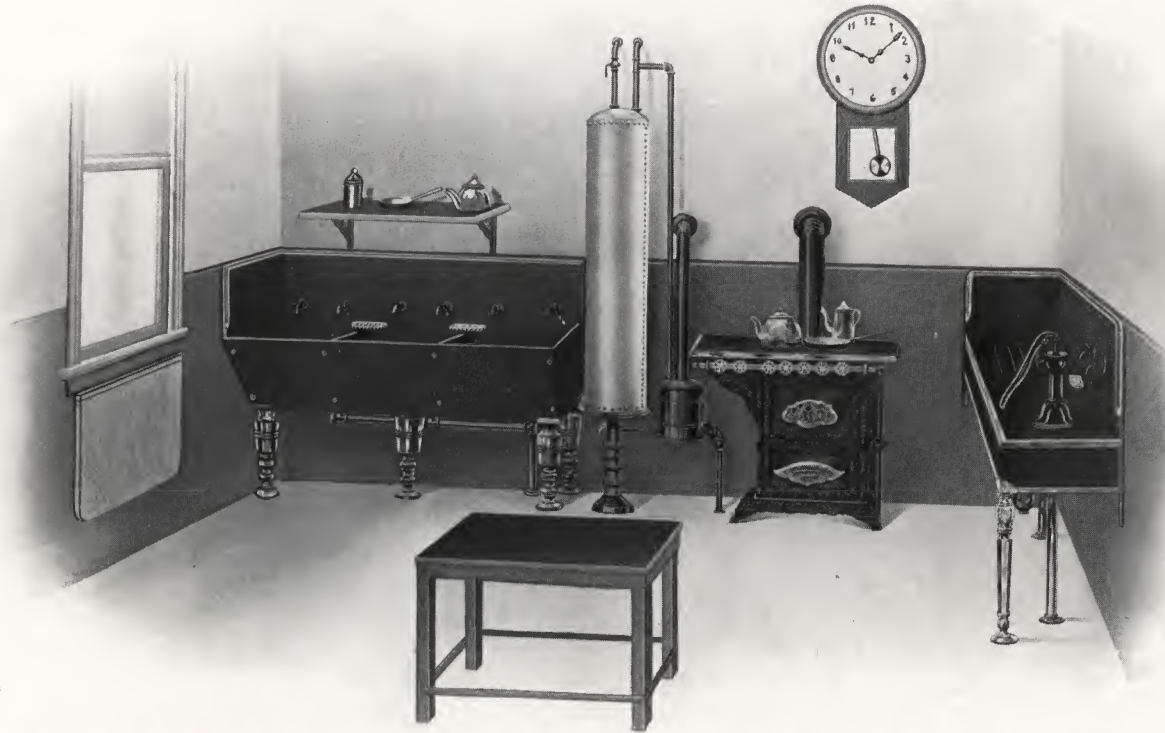

Section showing most modern method of erecting natural slate blackboards.

Genuine Bangor Slate Blackboards are unsurpassed in the schoolroom for cleanliness, durability, smooth writing surface and uniform lasting black color. Our blackboards are to be found in hundreds of schools and colleges in the United States and Canada; Architects and Educators all agree that natural slate blackboards are unsurpassed in the schoolroom and far superior to wooden or composition blackboards. Slate will not crack, warp or disintegrate, and will outlast the building. We furnish them to fill any space. Standard sizes, 3 feet, 3 feet 6 inches and 4 feet wide, average thickness  $\frac{3}{8}$  inch, carried in stock in large quantities. Special width boards made to order when requested.

KEENAN STRUCTURAL SLATE COMPANY, Incorporated, BANGOR, PA.

## Model for Modern Sanitary Kitchen

**Modern Sanitary Kitchen with Slate Sink and Drain Board, 3-part Laundry Tray, Kitchen Table Top and Wainscoting.** The qualities of durability and non-absorption make **slate** so desirable and serviceable in the household for kitchen sinks, laundry trays and wainscoting that it is greatly desired by housewives. No other material—be it stone, wood or metal—is so easy to keep clean. All impurities lodged on slate are quickly and easily washed away by the simple application of water.
